A comprehensive infographic titled "PHOTOGRAPHY CHEAT SHEET" designed to help users understand camera manual settings. It features four main sections: Aperture, Shutter Speed, ISO, and Exposure. Each section includes diagrams, text descriptions, and arrows indicating the range of each setting. The Aperture section shows lens diaphragms from f/2.8 to f/22, with f/2.8 labeled as "blurry background" and f/22 as "everything in focus". The Shutter Speed section lists speeds from 30s to 1/8000, with 30s for "longer exposure" and 1/8000 for "shorter exposure". The ISO section shows values from 100 to 3200, with 100 for "smooth images" and 3200 for "more grain/noise". The Exposure section shows light meter readings from -2 to +2, with 0 being "perfect". A central callout for "ISO" has arrows pointing to its corresponding ranges in all three sections. The entire sheet is framed by decorative borders and bunting at the top.
